4. The level of the course was sufficiently high for a PhD course on the topics included (*Medel = 4,6, SD = 0,5*) (*1 = Not at all, 5 = Very much so*)

KOMMENTAR

- Depending on the subject. Its hard to find appropriate level for everyone when students have such diverse topics and professions. However, those parts that I do not know from my profession was very satisfying. [4]
5. The distribution, timing, balance of different course topics were perfect (*Medel = 4,7, SD = 0,5*) (*1 = Not at all, 5 = Very much so*)

8. The course content including lectures, seminars, and workshops were useful for writing the research proposal (*Medel = 4,5, SD = 1,9*) (*1 = Not at all, 5 = Very much so*)

KOMMENTAR

- I could not participate in the last workshops concerning the research proposal [vet ej]

9. The examination felt relevant for the learning outcomes (*Medel = 5,0, SD = 0,0*) (*1 = Not at all, 5 = Very much so*)

KOMMENTAR

10. The content of the course was very relevant and useful for my research (*Medel = 4,3, SD = 0,9*) (*1 = Not at all, 5 = Very much so*)

KOMMENTAR

- Very good to get your proposal peer-reviewed, however not all studies encounter the same methodological challenges and for example the confounders discussed may not be as relevant for studies with smaller sample sizes. [3]

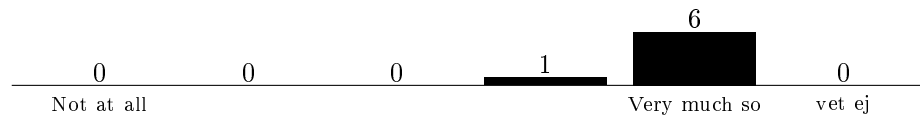

11. The administration of the course was well carried out (*Medel = 4,9, SD = 0,3*) (*1 = Not at all, 5 = Very much so*)

KOMMENTAR

- Very useful to use the schedule-function [5]
- Had been good to have handouts of the lectures ready (by paper or electronic) at the start of each lecture. [4]

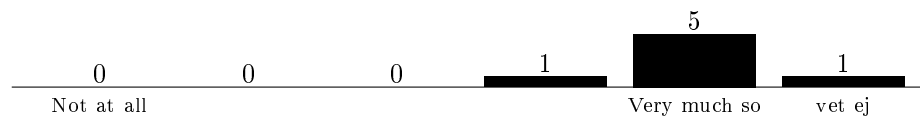

12. The localities were good (*Medel = 4,9, SD = 0,3*) (*1 = Not at all, 5 = Very much so*)
